Pentegra Joins a KPA-Focused Group

Pentegra Services is the **latest member** of East Granby, Connecticut-based **Retirement Advisor Council** in its service provider college, effective October 3.

The White Plains, New York-based recordkeeper is the latest of **several recent additions** to the RAC's service provider college.

Eric Henon, the executive director at Retirement Advisor Council, nominated Pentegra for membership.

"There's a lot of discussion on creating open multiple employer plans," he says, confirming that it was a pushing factor in his recommendation. "[Pentegra] has a very strong focus on MEPs and they're certainly going to contribute to the discussions in the council, which is important because it will facilitate the creation of new plans by employers."

Pete Swisher, senior vice president of national sales, will be representing Pentegra. Regarding joining RAC, he says "We hope to learn more about our marketplace, how to better service our customers and know what they're looking for."

The service provider college in RAC is a group focused on bringing advisors together and facilitating discussions relevant to the 401(k) business.
