

Dear *Ignites* readers,

On Thursday, February 7, at 1 p.m. ET, *Ignites* will hold its next Exchange webcast: Ripple Effects to Expect From MEP Reform.

Expanding access to multi-employer plans (MEPs) will redraw the lines of competition among retirement industry players — and potentially lure new firms into the market.

If efforts by legislators and regulators prevail, recordkeepers and fund managers could see a flood of new assets, new competitors and disruptive forces.

Panelists Kelly Michel of **Investnet Retirement Solutions** and Pete Swisher of **Pentegra Retirement Services** will discuss the potential growth, challenges and opportunities MEP evolution could bring.

You can sign up by either clicking the "Register Now" button in the right column or by [clicking here](#).

All Exchanges are recorded, so even if you cannot attend the initial broadcast, be sure to register now, so we can notify you when the archive becomes available.

If you have questions for our panelists, please send them to [TheExchange@ignites.com](mailto:TheExchange@ignites.com). We will select from those questions and ask them during the live event.
