

# FAST FACTS & FIGURES ABOUT SOCIAL SECURITY, 2021

Social Security Administration Office of Retirement and Disability Policy Office of Research, Evaluation, and Statistics 250 E Street SW, 8th Floor Washington, DC 20254

SSA Publication No. 13-11785
Produced and published at U.S. taxpayer expense

Released: September 2021

## **DID YOU KNOW THAT...**

69.8 million people received benefits from programs administered by the Social Security Administration (SSA) in 2020.

5.8 million people were newly awarded Social Security benefits in 2020.

55% of adult Social Security beneficiaries in 2020 were women.

**55.0** was the average age of disabled-worker beneficiaries in 2020.

of Supplemental Security Income (SSI) recipients received payments because of disability or blindness in 2020.

Fast Facts & Figures answers the most frequently asked questions about the programs administered by the Social Security Administration (SSA). It highlights basic program data for the Social Security (retirement, survivors, and disability) and Supplemental Security Income programs. Most of the data come from the Annual Statistical Supplement to the Social Security Bulletin, which provides detailed data on the programs administered by SSA. Data on trust fund operations are from the 2021 Trustees Report.

The tables and charts illustrate the range of program beneficiaries, from the country's oldest to its youngest citizens. In all, about 69.8 million people receive some type of benefit or assistance.

Kia Foster prepared this chartbook. Staff of the Office of Dissemination edited the chartbook and prepared it for publication.

Your suggestions and comments on this chartbook are welcome. Any suggestions, comments, or questions about the charts should be directed to the Office of Statistical Analysis and Support at 410-965-0090 or statistics@ssa.gov. This Chartbook and the Supplement are available on our website at https://www.ssa.gov/policy.

#### OASDI & HI Contributions

#### Tax rates, 2021 (in percent)

Program	<b>Employee</b>	Employer	Self-employed
Total	7.65	7.65	15.30
OASI	5.30	5.30	10.60
DI	0.90	0.90	1.80
HI	a 1.45	1.45	a 2.90

a. Earned income exceeding \$200,000 for individual filers and \$250,000 for married couples filing jointly is subject to an additional HI tax of 0.90 percent.

#### Taxes payable, 2021 (in dollars)

Type of earner	OASI	DI	HI
Average	3,130	532	856
Maximum	7,568	1,285	No limit
Self-employed maximum	15,137	2,570	No limit

#### Maximum earnings subject to Social Security taxes, 2021 (in dollars)

Program	Amount
OASDI	142,800
HI	No limit

Earnings required for work credits, 2021: \$1,470 for one work credit (one quarter of coverage)

NOTE: A worker may earn a maximum of four credits a year. Doing so in 2021, therefore, requires \$5,880 in earnings.

#### **OASDI** Benefits

#### Benefit payments as a percentage of gross domestic product, 2019–2020

Calendar year	Total	OASI	DI
2019	4.89	4.21	0.68
2020	5.23	4.55	0.69

NOTE: Figures are subject to change.

Cost-of-living adjustment, 2021: 1.30%

#### Age for full retirement benefit for retired workers

Year of birth	Full retirement age (FRA)
1937 and earlier	65
1938	65 and 2 months
1939	65 and 4 months
1940	65 and 6 months
1941	65 and 8 months
1942	65 and 10 months
1943–1954	66
1955	66 and 2 months
1956	66 and 4 months
1957	66 and 6 months
1958	66 and 8 months
1959	66 and 10 months
1960 and later	67

#### Maximum monthly Social Security benefit: \$3,148 for workers retiring at FRA in 2021

NOTE: Higher benefits are possible for those who work or delay benefit receipt after reaching FRA.

#### Benefit formula bend points (for workers with first eligibility in 2021):

Primary insurance amount (PIA) equals

90% of the first \$996 of average indexed monthly earnings (AIME), plus

32% of AIME over \$996 through \$6,002, plus

15% of AIME over \$6,002

#### OASDI Benefits (continued)

#### Average wage index, 2019-2021

Year	Dollars	year (in percent)
2019	54,099.99	3.7
2020 (estimated)	55,576.94	2.7
2021 (estimated)	59,064.67	6.3

#### **Exempt amounts under the retirement earnings test, 2021 (in dollars)**

Age of retired person in 2021	Annually	<u>Monthly</u>
Under FRA (\$1 for \$2 withholding rate)	18,960	1,580
FRA (\$1 for \$3 withholding rate) <sup>a</sup>	50,520	4,210
Above FRA	No limit	No limit

NOTE: Retired-worker beneficiaries younger than FRA have some of their benefit withheld if they have earnings above the exempt amounts.

#### SSI & DI Rates and Limits

#### SSI payment rates and resource limits, January 2021 (in dollars)

Program aspect	Individual	Couple
Federal benefit rate	794	1,191
Resource limit	2,000	3,000

#### Monthly earnings levels affecting disability program eligibility, 2021 (in dollars)

Determinant	Monthly amount
Substantial gainful activity	
For nonblind persons	1,310
For blind persons	2,190
Trial work period	940

a. The test applies only to earnings made in months prior to the month of attainment of FRA.

#### Trust Funds

#### Trust fund operations, 2020–2021 (in billions of dollars)

Calendar year and trust fund	Income	Outgo	Fund at end of year
2020 (actual)			
Total	1,118.1	1,107.2	2,908.3
OASI	968.3	961.0	2,811.7
DI	149.7	146.3	96.6
2021 (estimated)			
Total	1,073.8	1,151.0	2,831.0
OASI	930.1	1,005.4	2,736.4
DI	143.7	145.7	94.5

NOTE: Totals do not necessarily equal the sum of rounded components.

#### Poverty Thresholds and Administrative Data

#### Poverty thresholds, 2020 (in dollars)

Family unit	Amount
Aged individual	12,413
Family of two, aged head	15,644
Family of four	26,246

OASDI administrative expenses: Costs were 0.6% of contributions in calendar year 2020

#### Workload, fiscal year 2020 (in millions)

Type of filing	Number
OASI claims	6.1
DI claims	2.1
SSI applications	1.6

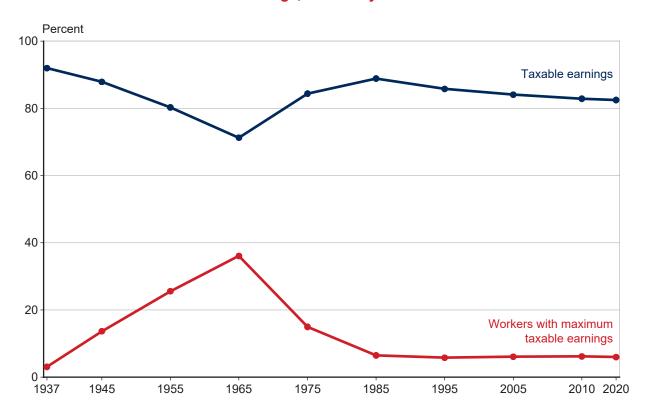

#### Note

We are suspending publication of the five charts that constitute the Income of the Aged Population section for the 2021 edition of Fast Facts and Figures as we continue to evaluate the adequacy of the charts' data source, the Annual Social and Economic Supplement (also known as the March Supplement) of the Current Population Survey (CPS). Findings from our initial evaluation are available in Dushi, Irena, and Brad Trenkamp. 2021. "Improving the Measurement of Retirement Income of the Aged Population." ORES Working Paper No. 116. Washington, DC: SSA, Office of Retirement and Disability Policy, Office of Research, Evaluation, and Statistics.

## Earnings in Covered Employment, 1937–2020

People contribute to Social Security through payroll taxes or self-employment taxes, as required by the Federal Insurance Contributions Act (FICA) and the Self-Employment Contributions Act (SECA). The maximum taxable amount is updated annually on the basis of increases in the average wage. Of the 175 million workers with earnings in Social Security—covered employment in 2020, about 6% had earnings that equaled or exceeded the maximum amount subject to taxes, compared with 3% when the program began and a peak of 36% in 1965. About 83% of earnings in covered employment were taxable in 2020, compared with 92% in 1937.

Taxable earnings as a percentage of earnings in covered employment and percentage of workers with maximum taxable earnings, selected years

SOURCE: SSA, Office of the Chief Actuary.

### **Insured Status**, 1970–2020

The percentage of persons aged 20 or older who are insured for benefits has changed very little in recent years. To be fully insured, a worker must have at least one work credit (quarter of coverage) for each year elapsed after age 21 (but no earlier than 1950) and before the year in which he or she attains age 62, becomes disabled, or dies. The maximum number of work credits needed to be fully insured is 40. An individual is said to be permanently insured if he or she has earned 40 work credits. To be insured for disability, the worker must be fully insured and have at least 20 work credits during the last 40 calendar quarters. (Requirements for disability-insured status are somewhat different for persons younger than age 31.) Disability benefits are available up to FRA.

#### Insured workers as a percentage of the corresponding Social Security area population, selected years

	Pop	ulation aged 20 or	older	Populatio	n aged 20 to FRA <sup>a</sup>
Year	Millions	Percentage permanently insured	Percentage fully insured	Millions	Percentage insured for disability
1970	135.0	50	77	113.9	63
1975	147.4	50	80	123.7	66
1980	161.8	53	83	135.2	70
1985	174.9	57	84	145.5	72
1990	186.0	63	86	153.7	75
1995	196.0	66	86	161.6	76
2000	207.0	68	87	171.4	78
2005	219.8	68	87	183.5	77
2010	239.5	70	88	191.7	76
2015	241.9	70	88	197.0	76
2016	243.8	70	88	197.5	76
2017	245.8	70	88	198.0	76
2018	247.8	70	89	198.5	77
2019	250.0	70	89	199.1	77
2020	251.0	70	89	198.9	77

SOURCE: SSA, Office of the Chief Actuary.

NOTES: The population in the Social Security area includes residents of the 50 states and the District of Columbia adjusted for net census undercount; civilian residents of American Samoa, Guam, Northern Mariana Islands, Puerto Rico, and U.S. Virgin Islands; federal civilian employees and persons in the U.S. armed forces abroad and their dependents; noncitizens living abroad who are insured for Social Security benefits; and all other U.S. citizens abroad.

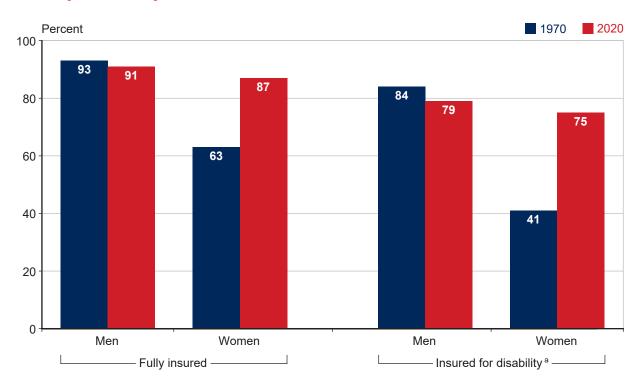

Figures are subject to revision.

a. Insured for disability excludes those who have reached FRA.

## Insured Status, by Sex, 1970 and 2020

Although men historically were more likely than women to be insured, the gender gap is shrinking. The proportion of men who are insured declined slightly from 1970 to 2020, with 91% fully insured and 79% insured for disability in 2020. By contrast, the proportion of women who are insured increased dramatically—from 63% to 87% fully insured and from 41% to 75% insured for disability.

# Percentage of population in the Social Security area fully insured and insured for disability benefits, by sex

SOURCE: SSA, Office of the Chief Actuary.

NOTES: The population in the Social Security area includes residents of the 50 states and the District of Columbia adjusted for net census undercount; civilian residents of American Samoa, Guam, Northern Mariana Islands, Puerto Rico, and U.S. Virgin Islands; federal civilian employees and persons in the U.S. armed forces abroad and their dependents; noncitizens living abroad who are insured for Social Security benefits; and all other U.S. citizens abroad.

Figures are subject to revision.

a. Insured for disability excludes those who have reached FRA.

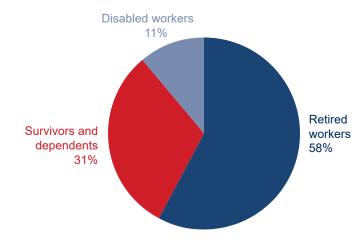

## **New Benefit Awards, 2020**

Benefits were awarded to about 5.8 million persons; of those, 58% were retired workers and 11% were disabled workers. The remaining 31% were survivors or the spouses and children of retired or disabled workers. These awards represent not only new entrants to the benefit rolls but also persons already on the rolls who become entitled to a different benefit, particularly conversions of disabled-worker benefits to retired-worker benefits at FRA.

#### New awards, by type of beneficiary

Beneficiary	Number (thousands)	Percent
Total	5,761	100
Retired workers and dependents	3,904	68
Workers	3,368	58
Spouses and children	536	9
Disabled workers and dependents	920	16
Workers	620	11
Spouses and children	301	5
Survivors of deceased workers	937	16

#### **New awards**

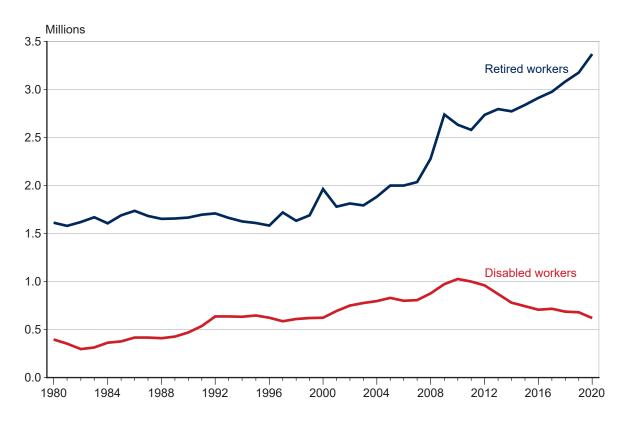

SOURCE: SSA, Master Beneficiary Record, 100 percent data.

NOTE: Totals do not necessarily equal the sum of rounded components.

## **New Awards to Workers, 1980–2020**

Awards to retired workers increased considerably over the past four decades, at a higher rate than that by which awards to disabled workers increased. The annualized rate of increase over the period from 1980 to 2020 is 1.9% for retired workers and 1.1% for disabled workers. The annual number of awards to retired workers rose from 1.6 million in 1980 to 3.4 million in 2020, while for disabled workers it increased from 397,000 in 1980 to 620,000 in 2020.

#### New awards to retired and disabled workers

## Beneficiaries in Current-Payment Status, December 2020

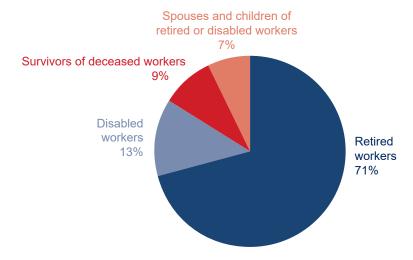

Sixty-five million beneficiaries were in current-payment status; that is, they were being paid a benefit. Seventy-one percent of those beneficiaries were retired workers and 13% were disabled workers. The remaining 16% of beneficiaries were survivors or the spouses and children of retired or disabled workers.

Marinalaan

#### **Beneficiaries in current-payment status**

Beneficiary	Number (thousands)	Percent
Total	64,851	100
Retired workers and dependents	49,358	76
Workers	46,330	71
Spouses and children	3,028	5
Disabled workers and dependents	9,618	15
Workers	8,151	13
Spouses and children	1,467	2
Survivors of deceased workers	5,875	9

#### Beneficiaries, by type

## **Average Benefit Amounts, 2020**

Benefits payable to workers who retire at FRA and to disabled workers are equal to 100% of the PIA (subject to any applicable deductions). At FRA, widow(er)s' benefits are also payable at 100% of the insured worker's PIA. Nondisabled widow(er)s can receive reduced benefits at age 60. Disabled widow(er)s can receive reduced benefits at age 50. Spouses, children, and parents receive a smaller proportion of the worker's PIA than do widow(er)s.

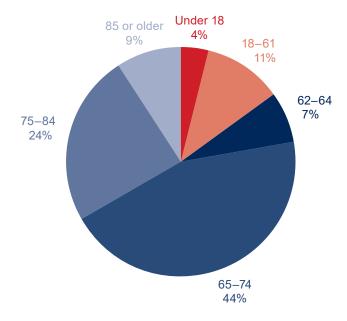

## Average monthly benefit for new awards and for benefits in current-payment status (in dollars)

Beneficiary	New awards	Benefits in current-payment status, December
Retired workers	1,636	1,544
Spouses	587	797
Children	704	730
Disabled workers	1,454	1,277
Spouses	391	361
Children	396	399
Survivors of deceased workers		
Nondisabled widow(er)s	1,112	1,455
Disabled widow(er)s	792	771
Widowed mothers and fathers	1,029	1,054
Surviving children	921	918
Parents	1,225	1,299

## Beneficiaries, by Age, December 2020

More than four-fifths of all OASDI beneficiaries in current-payment status were aged 62 or older, including 24% aged 75-84 and 9% aged 85 or older. About 11% were persons aged 18-61 receiving benefits as disabled workers, survivors, or dependents. Another 4% were children under age 18.

#### Beneficiaries, by age

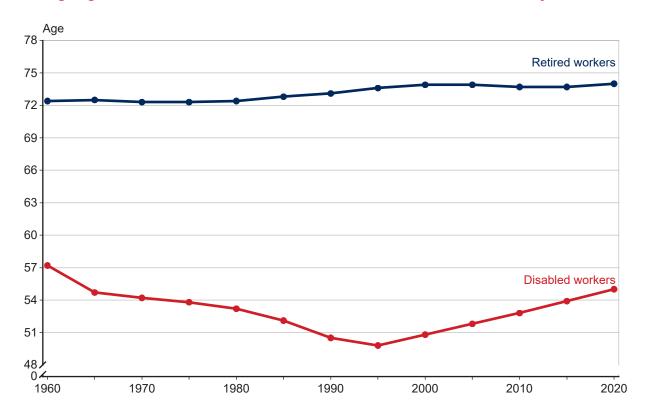

SOURCE: SSA, Master Beneficiary Record, 100 percent data.

NOTE: Totals do not necessarily equal the sum of rounded components.

## Age of Disabled and Retired Workers, 1960–2020

The average age of disabled-worker beneficiaries in current-payment status declined between 1960, when DI benefits first became available to persons younger than age 50, and 2020. In 1960, the average age of a disabled worker was 57.2 years. The rapid drop in average age in the following years reflects a growing number of awards to workers under 50. By 1995, the average age fell to a low of 49.8, but by 2020, it rose to 55.0. By contrast, the average age of retired workers has changed little over time, rising from 72.4 in 1960 to 74.0 in 2020.

#### Average age of disabled-worker and retired-worker beneficiaries, selected years

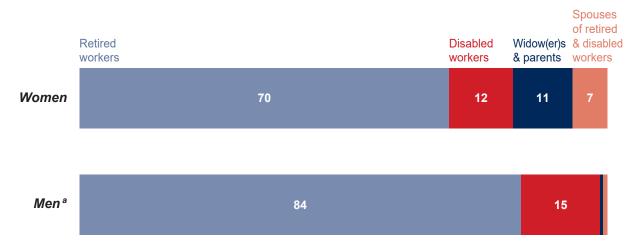

SOURCE: SSA, Master Beneficiary Record, 10 percent sample for 1990-2005 and 100 percent data for all other years.

## Beneficiaries, by Sex, December 2020

Of all adults receiving monthly Social Security benefits, 45% were men and 55% were women. Eighty-four percent of the men and 70% of the women received retired-worker benefits. Eleven percent of the women received survivor benefits.

#### Adult beneficiaries, by type of beneficiary and sex (in percent)

SOURCE: SSA, Master Beneficiary Record, 100 percent data.

NOTE: Totals do not necessarily equal the sum of rounded components.

a. Less than 1 percent of men received benefits as survivors (widowers or fathers) or as spouses of retired and disabled workers.

## **Average Monthly Benefit, by Sex, December 2020**

Among retired and disabled workers who collected benefits based on their own work records, men received a higher average monthly benefit than did women. For those with benefits based on another person's work record (spouses and survivors), women generally had higher average benefits.

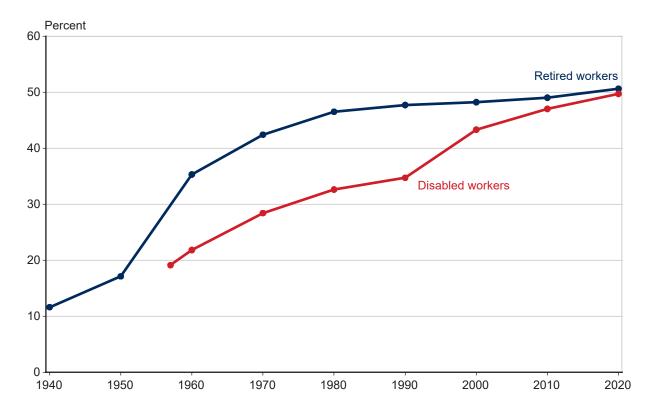

#### Average monthly benefit (in dollars)

Beneficiary	Men	Women
Workers	,	
Retired	1,714	1,378
Disabled	1,404	1,149
Spouses of—		
Retired workers	681	808
Disabled workers	381	358
Survivors of deceased workers		
Nondisabled widow(er)s	1,292	1,462
Disabled widow(er)s	588	787
Mothers and fathers	930	1,065

## **Women Beneficiaries, 1940–2020**

The proportion of women among retired-worker beneficiaries quadrupled between 1940 and 2020. The percentage climbed from 12% in 1940 to 47% in 1980, 48% in 1990, and 51% in 2020. The proportion of women among disabled-worker beneficiaries more than doubled between 1957, when DI benefits first became payable, and 2020. The percentage rose steadily from 19% in 1957 to 35% in 1990 and 50% in 2020.

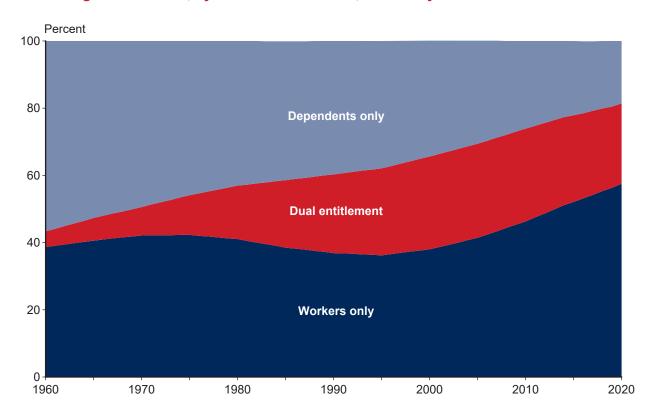

#### Women as a percentage of retired-worker and disabled-worker beneficiaries, selected years

## **Women with Dual Entitlement, 1960–2020**

The proportion of women aged 62 or older who are receiving benefits as dependents (that is, on the basis of their husbands' earnings record only) declined from 57% in 1960 to 19% in 2020. At the same time, the proportion of women with dual entitlement (that is, paid on the basis of both their own earnings records and those of their husbands) increased from 5% in 1960 to 24% in 2020.

#### Women aged 62 or older, by basis of entitlement, selected years

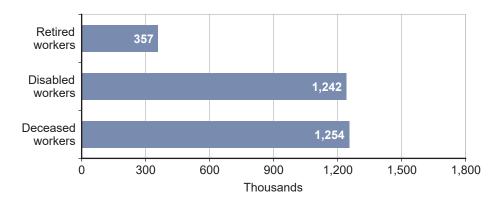

SOURCE: SSA, Master Beneficiary Record. All data for 2005 and dual entitlement data for 1995 and 2000 are based on a 10 percent sample. All other years are 100 percent data.

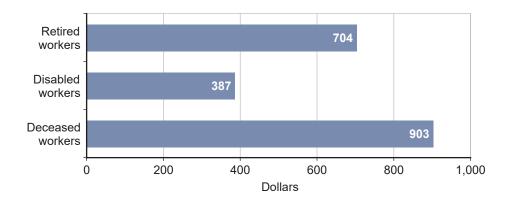

## **Child Beneficiaries, December 2020**

About 2.9 million children under age 18 and students aged 18-19 received OASDI benefits. Children of deceased workers had the highest average payments, in part because they are eligible to receive monthly benefits based on 75% of the worker's PIA, compared with 50% for children of retired or disabled workers. Overall, the average monthly benefit amount for children was \$653.

#### Number of children of—

#### Average monthly benefit for children of-

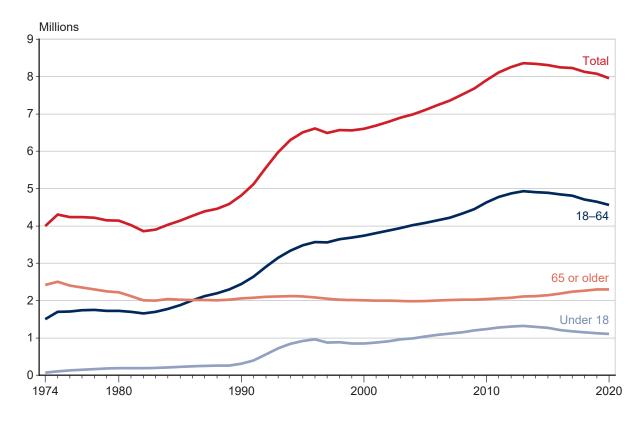

## **Number of Recipients, 1974–2020**

The Supplemental Security Income (SSI) program provides income support to needy persons aged 65 or older, blind or disabled adults, and blind or disabled children. Eligibility requirements and federal payment standards are nationally uniform. SSI replaced the former federal/state adult assistance programs in the 50 states and the District of Columbia.

Payments under SSI began in January 1974, with 3.2 million persons receiving federally administered payments. By December 1974, this number had risen to nearly 4 million and remained at about that level until the mid-1980s, then rose steadily, reaching nearly 6 million in 1993 and 7 million by the end of 2004. As of December 2020, the number of recipients was about 8.0 million. Of this total, 4.6 million were between the ages of 18 and 64, 2.3 million were aged 65 or older, and 1.1 million were under age 18.

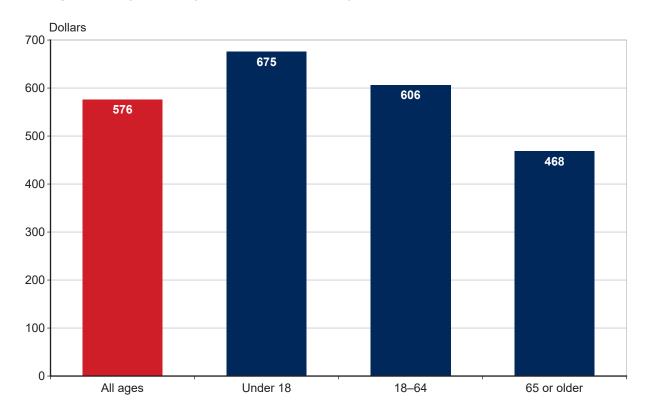

#### Persons receiving federally administered SSI payments, December

## Payment Amounts, by Age, December 2020

The average monthly federally administered SSI payment was \$576. Payments varied by age group, ranging from an average of \$675 for recipients aged under 18 to \$468 for those aged 65 or older. The maximum federal benefit rate in December 2020 was \$794 for an individual and \$1,191 for a couple, plus any applicable state supplementation.

#### Average monthly federally administered SSI payment

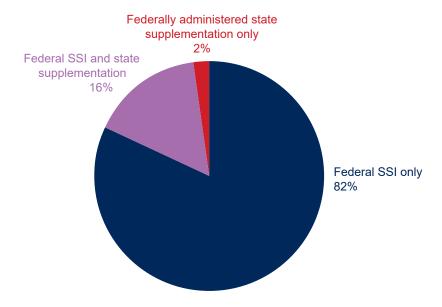

SOURCE: SSA, Supplemental Security Record, 100 percent data.

NOTE: Amounts exclude retroactive payments.

## Federally Administered Payments, December 2020

A total of 8.0 million persons received federally administered SSI payments. The majority received federal SSI only. States have the option of supplementing the federal benefit rate and are required to do so if that rate is less than the income the recipient would have had under the former state program.

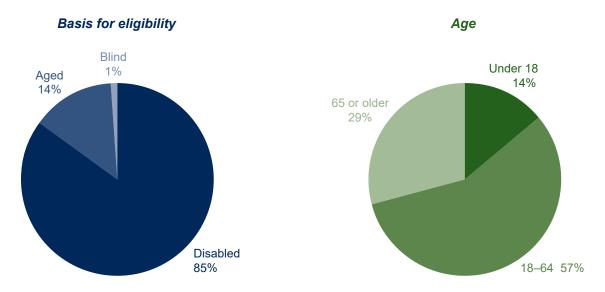

#### Type of SSI payment

## Basis for Eligibility and Age of Recipients, December 2020

Fourteen percent of SSI recipients received benefits on the basis of age and the rest qualified on the basis of disability. Twenty-nine percent of the recipients were aged 65 or older. In the SSI program, a disabled recipient is still classified as "disabled" after reaching age 65. In the OASDI program, DI beneficiaries are converted to the retirement program when they attain FRA.

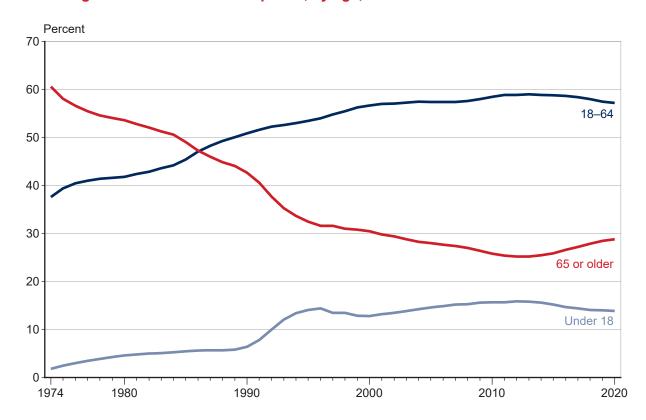

#### SSI recipients, by basis for eligibility and age

## Percentage Distribution of Recipients, by Age, 1974-2020

The proportion of SSI recipients aged 65 or older declined from 61% in January 1974 to 29% in December 2020. The overall long-term growth of the SSI program occurred because of an increase in the number of disabled recipients, most of whom are under age 65.

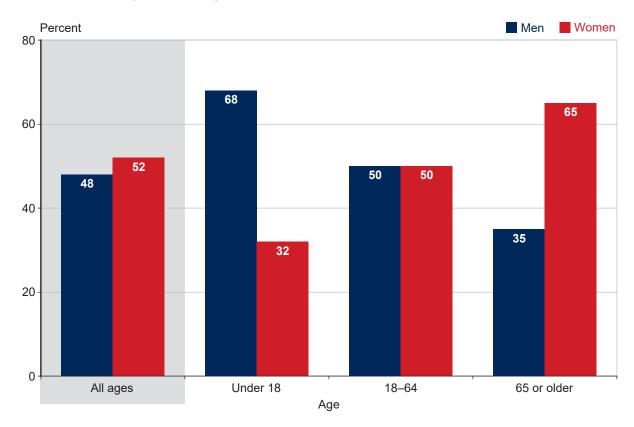

#### Percentage distribution of SSI recipients, by age, December

## Recipients, by Sex and Age, December 2020

Overall, 52% of the approximately 8.0 million SSI recipients were women, but that percentage varied greatly by age group. Women accounted for 65% of the 2.3 million recipients aged 65 or older, 50% of the 4.6 million recipients aged 18-64, and 32% of the 1.1 million recipients under age 18.

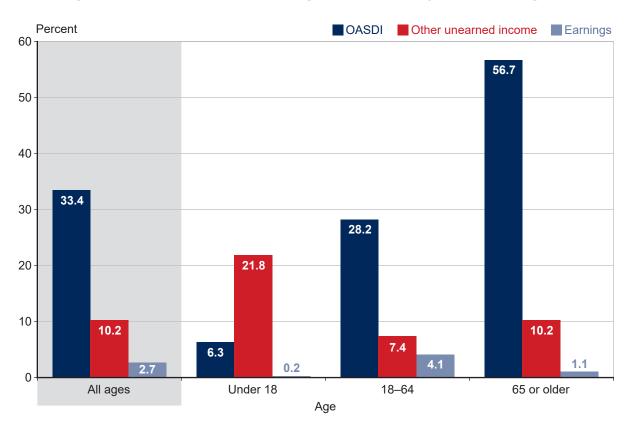

#### SSI recipients, by sex and age

## Other Income, December 2020

Almost 57% of SSI recipients aged 65 or older received OASDI benefits, as did 28.2% of those aged 18–64 and 6.3% of those under age 18. Other types of unearned income, such as income from assets, were reported most frequently among those under age 18 (21.8%) and those aged 65 or older (10.2%). Earned income was most prevalent (4.1%) among those aged 18–64.

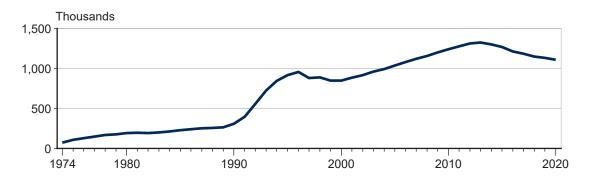

#### Percentage of SSI recipients also receiving other income, by source and age

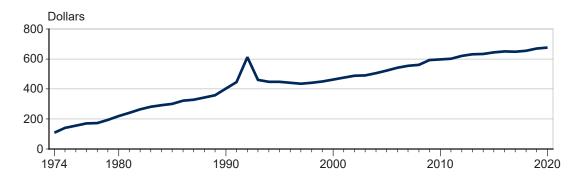

## Child Recipients, December 1974–2020

As of December of the program's first year, 1974, 70,900 blind and disabled children were receiving SSI. That number increased to about 955,000 in 1996, declined to about 847,000 in 2000, and increased to 1,108,612 in 2020. The relatively high average payment to children (compared with payments made to blind and disabled adults) is due in part to a limited amount of other countable income. The spike in average monthly benefits in 1992 is due to retroactive payments resulting from the Sullivan v. Zebley decision. As of December 2020, blind and disabled children were receiving SSI payments averaging \$675.

#### Number of children under age 18 receiving SSI

#### Average monthly SSI payment to children under age 18<sup>a</sup>

SOURCE: SSA, Supplemental Security Record, 100 percent data.

a. As of 1998, these figures exclude retroactive payments.

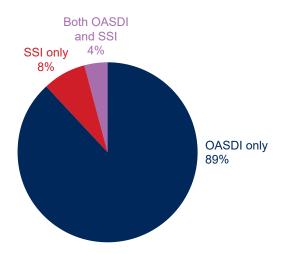

## All Beneficiaries, December 2020

About 69.8 million people received a payment from one or more programs administered by SSA. Most (61.8 million) received OASDI benefits only, 5.3 million received SSI only, and 2.6 million received payments from both programs.

#### Beneficiaries receiving OASDI, SSI, or both

Benefit	Number (thousands)
Total (unduplicated)	69,768
OASDI	64,449
OASDI only	61,808
SSI	7,960
SSI only	5,319
Both OASDI and SSI	2,641

#### Distribution of all beneficiaries

SOURCES: SSA, Master Beneficiary Record and Supplemental Security Record, 100 percent data.

NOTES: OASDI beneficiaries who are entitled to both a primary and a secondary benefit (dual entitlement) are counted only once. SSI includes federal SSI payments and federally administered state supplementation.

Totals do not necessarily equal the sum of rounded components.

## Beneficiaries Aged 65 or Older, December 2020

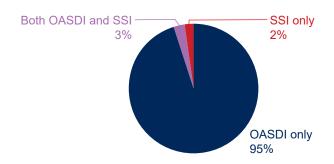

Benefits were paid to 50.7 million people aged 65 or older. About 1.3 million received both OASDI and SSI.

Marinalaan

#### Beneficiaries aged 65 or older receiving OASDI, SSI, or both

Beneficiary	Number (thousands)
Total (unduplicated)	50,741
OASDI	49,739
Retired workers	43,754
Disabled workers	552
Spouses	2,181
Widow(er)s	a 3,150
Disabled adult children	102
OASDI only	48,446
SSI	<sup>b</sup> 2,295
Receiving SSI only	1,002
Receiving both OASDI and SSI	1,293

#### Distribution of beneficiaries aged 65 or older, by program

SOURCES: SSA, Master Beneficiary Record and Supplemental Security Record, 100 percent data.

NOTE: OASDI beneficiaries who are entitled to both a primary and a secondary benefit (dual entitlement) are counted only once. SSI includes federal SSI payments and federally administered state supplementation.

- a. Includes persons who received dependent parent's benefits or mother's and father's benefits.
- b. Includes 1,158,862 SSI beneficiaries aged 65 or older who are disabled or blind.

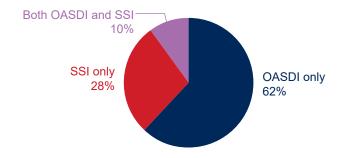

## Disabled Beneficiaries Aged 18–64, December 2020

Payments were made to 12 million people aged 18-64 on the basis of their own disability. Sixty-two percent received disability payments from the OASDI program only, 28% received payments from the SSI program only, and 10% received payments from both programs.

#### Disabled beneficiaries aged 18-64 receiving OASDI, SSI, or both

Beneficiary	Number (thousands)
Total (unduplicated)	12,000
OASDI disability	8,598
Workers aged 64 or younger	7,586
Disabled adult children	915
Widow(er)s	98
OASDI disability only	7,444
SSI disability	4,556
Receiving SSI disability only	3,402
Receiving both OASDI and SSI disability	1,154

#### Distribution of disabled beneficiaries aged 18-64

SOURCES: SSA, Master Beneficiary Record and Supplemental Security Record, 100 percent data.

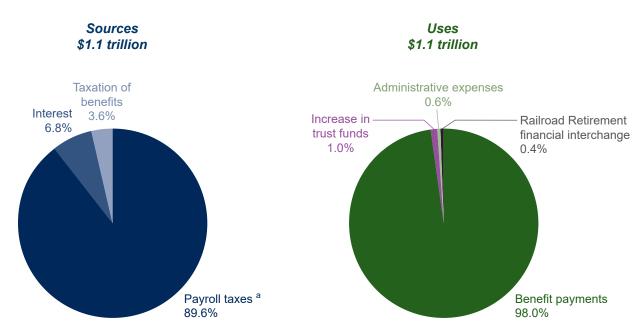

NOTES: OASDI beneficiaries who are entitled to both a primary and a secondary benefit (dual entitlement) are counted only once. SSI includes federal SSI payments and federally administered state supplementation.

Totals do not necessarily equal the sum of rounded components.

## **How Social Security Is Financed**

Social Security is largely a pay-as-you-go program. Most of the payroll taxes collected from today's workers are used to pay benefits to today's recipients. In 2020, the Old-Age and Survivors Insurance and Disability Insurance Trust Funds collected \$1.1 trillion in revenues. Of that amount, 89.6% was from payroll tax contributions and reimbursements from the General Fund of the Treasury and 3.6% was from income taxes on Social Security benefits. Interest earned on the government bonds held by the trust funds provided the remaining 6.8% of income. Assets increased in 2020 because total income exceeded expenditures for benefit payments and administrative expenses.

a. Includes General Fund reimbursements, which accounted for less than 0.1% of Trust Fund income.

## Social Security's Demographic Challenge

The 2021 Trustees Report projects that the number of retired workers will grow rapidly, as members of the post-World War II baby boom continue to retire in increasing numbers. The number of retired workers is projected to double in about 50 years. People are also living longer, and the birth rate is low. As a result, the Trustees project that the ratio of 2.7 workers paying Social Security taxes to each person collecting benefits in 2020 will fall to 2.2 to 1 in 2039. In 2010, tax and other noninterest income did not fully cover program cost, and the 2021 Trustees Report projects that this pattern will continue for at least 75 years if no changes are made to the program. However, the Trustees also project that redemption of trust fund assets will be sufficient to allow for full payment of scheduled benefits until 2034.

## The Long-Run Financial Outlook

Social Security is not sustainable over the long term at current benefit and tax rates. In 2010, the program paid more in benefits and expenses than it collected in taxes and other noninterest income, and the 2021 Trustees Report projects this pattern to continue for the next 75 years. The Trustees estimate that the combined OASI and DI trust fund reserves will be depleted by 2034. At that point, payroll taxes and other income will flow into the fund but will be sufficient to pay only about 78% of program costs. As reported in the 2021 Trustees Report, the projected shortfall over the next 75 years is 3.54% of taxable payroll.
